Project Name	Project-Strategic product placement analysis: Unveiling Sales Impact With Tableau Visualization

Customer Problem Statement:

This project statement aims to understand the customer's point of view by analyzing sales data through Tableau visualizations, uncovering how strategic product placement impacts sales, and enabling businesses to design data-driven, customer-focused placement strategies that improve satisfaction and revenue.

I am	Describe customer with 3-4 key characteristics - *who are they?*	Describe the customer and their attributes here
I'm trying to	*List their outcome or "job" the care about - what are they trying to achieve?*	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way – *what bothers them most?*	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists – *what needs to be solved?*	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view – *how does it impact them emotionally?*	Describe the emotions the result from experiencing the problems or barriers

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A retail customer	Easily find the right products at the right place with good offers.	Easily find the right products at the right place with good offers.	Product placement is not based on customer behavior or sales data.	Confused, frustrated, and less interested in purchasing.
PS-2	A retail manager	Place products strategically to increase sales and improve customer experience.	I am unable to identify which product placemen ts actually drive higher sales.	Sales data is scattered and not analyzed visually.	Uncertain and unable to make confident, data-driven decisions.
